subratamondal.dev

SKILLS

Languages : JavaScript, TypeScript, Go
Backend : Node.js, Express.js, Next.js
Database : MongoDB, PostgreSQL, Redis
Frontend : React.js, React Native, TailwindCSS
Tools : Git, GitHub CI/CD, Linux, Docker

CLIENT WORK

Arabinda Kajli Oct 2025 – Nov 2025
Web Developer (Portfolio) Remote

- Built a **personal portfolio website** with custom **admin panel** for content management using React, TypeScript, and Tailwind CSS
- Integrated **Quill rich text editor** with **Appwrite** backend for auth, database, and file storage; managed global state via **Redux**

PROJECTS

TechKart – Full-Stack E-Commerce Platform

Code | Live

MERN, Tailwind CSS, Razorpay, Redis, Docker, Nginx, AWS

- Built a multi-role e-commerce platform (user, seller, shipment master, delivery agent) with secure **30+** REST APIs using **JWT + refresh tokens** and role-based access control.
- Integrated **Razorpay** payments, Google OAuth, and **Redis** and **nodemailer**-based password recovery system.
- Engineered backend features including **rate limiting, cron jobs, invoice PDF generation, response caching**, and **Swagger** API documentation.
- Built a **Redux-powered** React frontend with infinite scroll, optimistic UI updates, and QR code scanning for order tracking.
- Deployed via **Docker Compose + Nginx** on **AWS** using **CI/CD** with production-grade configuration.

YouTube Doubt Clearer – AI-Powered Video Q&A Chatbot

Code | Live

Next.js, YouTube API, Sarvam AI, PostgreSQL

- Built multilingual AI chatbot for Indian students to ask doubts on any YouTube video with **Bengali, Hindi, English, and Hinglish** support.
- Backend pipeline fetches metadata + subtitles via **YouTube API**, chunks into **40s intervals**, and stores in **PostgreSQL** with deduplication; persists **conversation history** per session for multi-turn memory.
- Injects ±**90s timestamp-aware** subtitle context alongside **chat history** into dynamic prompts; streams **Sarvam AI** response with mid-stream parsing to split reasoning and final answe.r
- **Next.js** frontend with inline video + side-by-side chat; enforced code quality via pre-push **CI** and **CodeRabbit**.

NS Player – Offline Video Player & Sync

Code | Releases

TypeScript, React Native, Go, GitHub Actions

- Built a cross-platform video player for **Android and Linux** with custom playback controls, keyboard shortcuts, gesture handling, and subtitle support.
- Implemented **QR-code-based device pairing** and playback timestamp sync over a local network with no internet or always-on server; persisted playback state via **AsyncStorage** (Android) and filesystem storage (Linux), with async disk writes using Go goroutines.
- Set up **GitHub Actions CI/CD** to automate builds and publish beta and stable releases for Android and Linux.

EDUCATION

Shoolini University Aug. 2025 – Present
Bachelor of Computer Applications Online - Available Full-Time
